## Technical Specifications

### Key Features

Dry technology ceramic core, electric radiators. Wifi enabled which allows programming from a mobile app. Geolocation technology controls your heating according to the location of your mobile phone.

### WiFi Capability

The Wifi radiators require a SmartBox. One SmartBox can control up to 31 radiators. Several SmartBoxes can be managed by one app. If the internet connection is lost, the radiators continue to work and can be controlled using the digital panel. The max distance from the SmartBox to the radiator is 200m in open spaces And 30m indoors, where there are 2-3 walls.

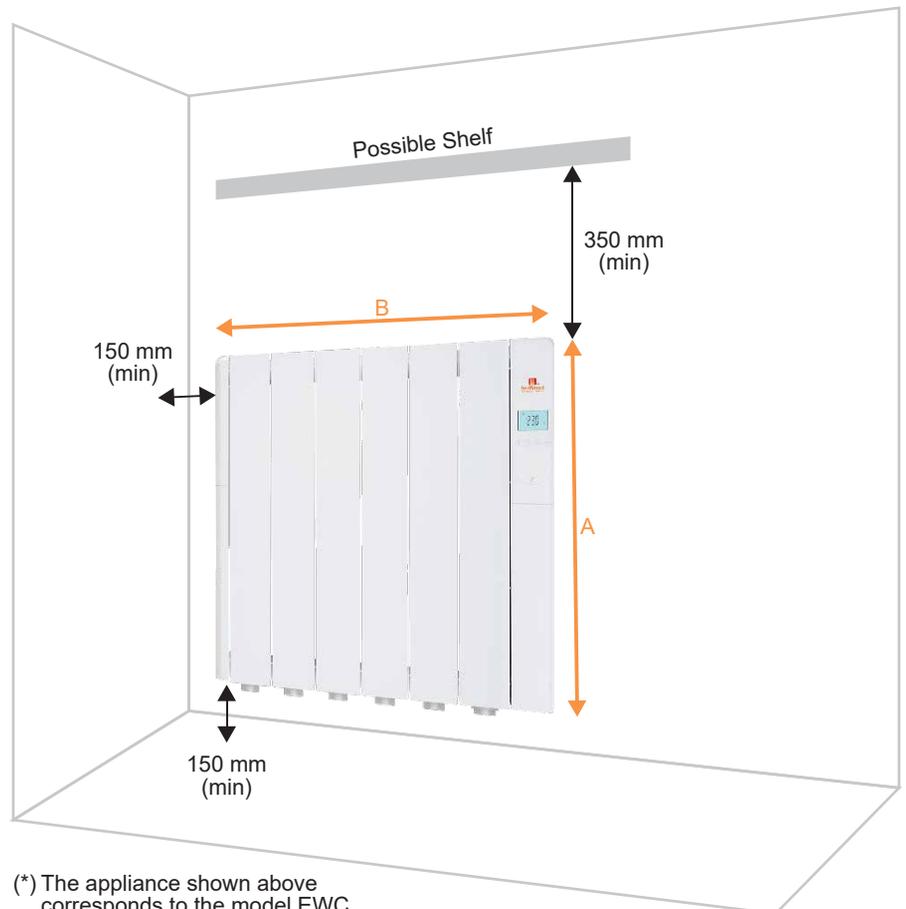

Model	750w	1000w	1500w	2000w
Voltage	220 - 240V			
Loading	0.75kW	1.00kW	1.50kW	2.00kW
Frequency	50 - 60Hz			
Electrical Protection Class	Class II			
IP Rating	IP32			
Height (A)	575 mm			
Width (B)	406 mm	566 mm	726 mm	886 mm
Depth	95 mm			
Fixing Points	Easy installation to wall using the template supplied with each model.			
Clearance	Please refer the assembly sheet for information related to your model.			
Weight	11 kg	13 kg	17 kg	21 kg
Colour	White RAL 9010			
Warranty	2 Years			

### Ceramic Core

As with all VeriSmart radiators, the ceramic core has high thermal inertia, keeping a room warmer for longer. Once up to temperature, the temperature is kept stable and comfortable using minimum energy consumption. The heating element is embedded within the ceramic block and has double thermal isolation Class II.

### Features

- 4 powers; 750 watts, 1000 watts, 1500 watts, 2000 watts
- Comfort, economic and frost mode
- Extra silent digital regulation with a Triac component
- Digital, programmable control placed on top for ease of access
- LCD screen
- Temperature precision 0.1 °C
- Security thermal cut-off
- Open window function
- 1.5m cable
- WiFi capability
- Geolocation
- Wall mounting brackets included

## Need Help or Technical Support?

Contact our team on 01484 21 31 51 or [info@verismartheating.com](mailto:info@verismartheating.com)

Our vision is to deliver market leading electric heating products and smart heating solutions for all. We believe that affordable, reliable and sustainable warmth is a basic human right and therefore we are supporting UN Global Goals 7 (affordable clean energy) and Goal 12 (responsible consumption).
